

How to insert symbols into your LinkedIn or Facebook profile

Procedure Option #1.

1. Find someone's profile that has the character you want to include in your own.
2. Drag your mouse over the character and press CTRL + C to copy it
3. Open your profile and select the "Edit my Profile" tab.
4. Paste the selected character where you want it to be inserted by pressing CTRL + V
5. Save the changes to your profile and view the results.

Procedure Option #2

1. Click on Start + Programs + Accessories + System Tools + Character Map
2. Select a full character set font, such as "Arial"
3. Scroll through the characters until you find the desired symbol

4. Double-click on the character or click once on "Select"
5. Copy the character by pressing CTRL + C or click once on "Copy"
6. Open your profile and select the "Edit my Profile" tab.
7. Paste the selected character where you want it to be inserted by pressing CTRL + V
8. Save the changes to your profile and view the results.

Procedure Option #3

1. Open your profile and select the "Edit my Profile" tab.
2. Place your cursor where you want the character it to be inserted and press ALT + 0134
3. Save the changes to your profile and view the results.
